HiFINITY | PREMIUM SLIM FRAME SLIDING DOOR SYSTEMS

Transform the look of your property with our premium aluminium sliding doors.

Whether you are planning a renovation or a complete new build project, Renka slim frame sliding doors can transform an ordinary room into a key feature of the house, giving your home a real wow factor.

An innovative, contemporary design statement that completely opens up your living space and garden for modern living.

Renka sliding doors are a premium insulated sliding system combining both great aesthetics with state-of-the-art of performance.

# HiFinity

## PREMIUM SLIM FRAME SLIDING DOOR SYSTEMS

HiFinity | PREMIUM SLIM FRAME SLIDING DOOR SYSTEMS

Imagine a 10-metre-wide 2-panel-door with over 99% glass and less than 1% aluminium in your sightline.

99% Glass	The incredible 99% Glass-to-Frame ratio offers stunning aesthetics and almost uninterrupted views	U-Value down to 0.75	HiFinity achieves coveted Minergie rating to keep your customers' energy bills down and comfort up	750kg Moving Glass	HiFinity's superior engineering copes effortlessly with moving glass panels of up to 750kg (5m x 3m)
Electric Locking as Standard	Integrated hidden electric lock for high security - no more worries about losing keys!	Unique Adjustable Meeting Section	Now you can get perfect operation even when there's a slight variation on site substrates	Structurally Bonded Glass	Maximum strength means less framing and more transparency - and a stunning look for any home

There is a growing demand for homes that are flooded with natural daylight; homes that have large expanses of glass providing unobstructed views; homes with huge aluminium sliding doors that open up the back of the house and blur the divide between home and garden.

The slim frame profiles and great structural integrity of our HiFinity sliding doors make it possible for us to offer industry-leading maximum sizes, keeping the number of mullions to a minimum and maximising the glass area.

HiFinity's aluminium sliding patio doors have been cleverly designed so that the outer frame can be concealed behind the surrounding wall, making wall-to-wall and floor-to-ceiling glass a possibility in any home.

A modern glass extension, for example, can both contrast and complement the style of a traditional property.

For a more adventurous contemporary design, the versatility of our products and the support of our skilled technical team mean the glazing can become a feature of the property rather than just a functional necessity.
